

**Council Meeting: May 24, 2007****SUBJECT: Annual Review of Fees and Charges for Fiscal Year 2007/2008****REPORT IN BRIEF**

The current fees and charges of the City have been reviewed in accordance with the Fiscal Sub-element of the General Plan. After an extensive and detailed review of fees, adjustments have been made to the proposed fee schedule as necessary to ensure that all fees and charges are aligned with the cost to provide each service, except for those fees that are legally limited, market based, and in some cases, as discussed below, subsidized.

For those fees that are only adjusted for inflation, a standard percentage of 2% has been applied. The proposed fee schedule (Exhibit A of Attachment A) details all the recommended fees.

**BACKGROUND**

Annually, staff submits the proposed fees and charges for the upcoming fiscal year to the City Council along with the recommended budget. A public hearing is held on fees and other budget related items, followed by formal action adopting updated and new fees.

The attached fee schedule references all City fees, including the proposed utility rates. Fees related to Utility services (water, refuse, and sewer) are adopted by Council when the utility rates are set. This is done by separate action. Even though these rates are adopted as a separate action, they are included in the attached fee schedule, which is a Citywide reference tool of all City fees/charges. Any Council approved changes to the proposed utility rates will be updated in the fee schedule when the utility rates are adopted.

Most new fees become effective at the start of the new fiscal year on July 1, 2007. There are two exceptions: Development processing fees (filing, accepting, reviewing, approving, or issuing of an application or permit) and mitigation fees become effective 60 days after adoption in accordance with §66017 of the California Government Code and golf fees go into effect on April 1, 2008 because they are adjusted with the golf season.

**EXISTING POLICY**

The Fiscal Sub-Element of the General Plan states that user charges and fees should be adjusted at least annually to avoid sharp changes (B.5.2), user fees

should be established at levels which reflect the full cost of providing those services (B.5.4), and Council may determine whether a subsidy for any service is in the public interest (B.5.5). The annual review and adjustment of fees and charges is in accordance with these action statements.

## **DISCUSSION**

Staff has made adjustments to the proposed fee schedule as necessary to ensure that all fees and charges are aligned with the cost of service, except for those fees that are legally limited, market based or (in some cases) subsidized. The recommended FY 2007/2008 Budget and Long Term Financial Plan includes a budgetary inflation factor of 2%. For fees that have not been adjusted by any specific factor mentioned above, the 2% increase has been applied. For ease of administration, many fees have been rounded to the nearest logical unit.

The proposed fees related to utilities services (water, refuse, and sewer) have been adjusted in the attached fee schedule by the corresponding increase in those utilities' rates. The utilities related fees will be adopted by a separate action of the City Council, scheduled to occur on June 12, 2007. Any changes approved by Council will be incorporated into the fee schedule at that time.

The City's Fiscal Policy guides staff to set fees for services to recover cost where possible and legally allowed. Staff continues to ensure that all fees not legally limited or market based provide for full cost recovery. During FY 2006/2007, all fees that were legally limited were analyzed in detail to ensure the City is setting fees in accordance with the legal requirements.

A detailed analysis was conducted of Public Safety fees and these fees have been modified to meet projected costs where warranted. A detailed analysis was also conducted of development fees as a whole. Our initial analysis indicates that development fees are properly set to recover costs. As explained later, more analysis will be performed on development fees in the upcoming fiscal year.

As part of this process, staff also began the review of fees charged for Public Records Act requests, specifically to determine if a graduated fee can be applied. This direction was provided by Council during the budget restructure review meeting for FY 2006/2007. This project, headed by the Office of the City Attorney, is in progress. Work is continuing and results will be reported as soon as they become available.

The results of these efforts have been incorporated into the recommended Fee Schedule for FY 2007/2008. New fees or fees that are proposed to be adjusted by an amount other than the standard inflation factor are discussed below.

**New Fees**

The following are new fees that have been proposed by staff for FY 2007/2008. These fees have generally been proposed to address either a new demand for service, to recover the cost resulting from a significant increase in demand for service that the City already provides, or to collect revenue for a service that has been provided at no cost, the cost of which can be legally recovered from the user of the service. Each fee has been carefully evaluated to ensure it covers the cost of providing each service.

**Office of the City Manager**

The Office of the City Manager has reviewed the City's notarization services and is recommending that the different notarization services available to the general public and City employees (and their respective fees) be included in the fee schedule. (In previous years, only the fee for a signature notarization was listed in the fee schedule.) All notarization fees are legally limited by California Government Code. The notarization fee is waived for any notary services provided to the City for City business.

The Office of the City Manager is proposing a new fee of \$200 for initiative petitions. This fee is a local ballot initiative filing fee. The fee is legally limited to \$200 per Election Code 9202(b) and is refundable within one year of the date of the filing if the elections official certifies the sufficiency of the petition.

**Department of Finance**

The Finance Department regularly receives requests from the business community for a reprint of their Business License Tax certificate. Staff currently charges a fee of \$10.00 for a re-print of the tax certificate. Staff proposes charging the same fee for a screen print of the business information. This is a service that is currently free of charge. This process takes the same amount of staff time as generating a re-print of the license and due to the increase in demand for this service, staff proposes a fee of \$10.00.

**Public Safety****Alarm User Permit**

The alarm users permit, approved in concept with last year's fee schedule, will move forward for a July 1, 2007 implementation. The Department of Public Safety will be bringing forth an ordinance amendment to allow for the implementation of these fees. A new permit fee for fire and burglar alarm users will also be recommended. The annual proposed fee is \$35.00 for residents and \$70.00 for businesses. In addition, a penalty of \$250.00 is being proposed for those who do not obtain the permit and are therefore in violation of the ordinance.

## **Non-Standard Fee and Charge Adjustments**

The following fees were adjusted by an amount different than the standard 2% inflation factor. Fees that are proposed to be increased above standard inflation or maintained at the current rate (as opposed to inflating) are addressed in this section. Proposed subsidized fees are also discussed in this section.

### **Department of Community Development**

#### Park Dedication Fees

Park Dedication fees are based on the fair market value of land in the City. Due to the increase in value of real property in Sunnyvale, it is recommended that Park Dedication fees be increased from \$81 per square foot to \$96 per square foot. A Study Issue to analyze Park Dedication fees is scheduled for early FY 2007/2008.

#### Development Processing Fees

During FY 2006/2007, a detailed analysis was conducted of development fees as a whole. Development fees reside in the Public Works and Community Development Departments. Development fees as a whole were determined to be full cost recovery. In Fiscal Year 2007/2008, staff plans to further analyze these fees and break down the development fees by activity in order to establish the nexus between the fees we charge and our costs to perform the work.

#### Below Market Rate (BMR) Program Fees

There are three fees under the Below Market Rate housing program. These fees were developed for services provided to process BMR purchase applications, BMR re-finance requests, and certification of eligibility for BMR renters.

Staff time to review and verify the documentation submitted on eligibility and preference points to purchase a BMR is considerable. With the submittal of their application to purchase, an applicant pays a non-refundable filing fee for processing their application.

BMR owners who wish to refinance are required to attend an educational workshop and work with City staff to record a new Deed of Trust to replace the prior deed restriction, and a Request for Notice of Default. City staff time is required to process a refinance from the initial request until the close of escrow and receipt of the recorded Deed of Trust.

In the BMR Rental Program, each property owner/manager maintains a waiting list for their property. Each applicant is granted preference points to determine

their priority placement on the waiting list. The City issues a "Certificate of Eligibility" to each applicant so that there is uniformity in the review of documentation and assignment of preference points using the City's database.

Staff recommends that all fees under this program remain unchanged. These fees are reasonable, within the same range as fees charged by other entities, and are below the actual cost for processing. These program fees are subsidized by the BMR in-lieu fees.

#### Housing Mitigation Fees

Community Development will be bringing forth an item, for Council consideration, to determine whether or not to index this fee. Community Development plans to bring the item to Council in July. Any changes approved by Council will be incorporated into the fee schedule at that time.

### **Department of Libraries**

The majority of Library fees are either in sync with the fees and fines charged by the Silicon Valley Library System or they are set to recover costs. Those that are deemed to be cost recovery have been studied and no change is recommended at this time with the following two exceptions.

The current processing fee for lost or damaged paperbacks, boardbooks, magazines, or pamphlets is being split into two fees, based on whether or not an acceptable replacement item is provided by the patron. The processing fee when no acceptable replacement item is provided is higher because staff has to order and catalog the new item.

A detailed analysis was conducted to ensure that fees reflect both the direct and indirect cost of providing the service. For that reason, the processing fee for lost or damaged items (other than paperbacks, boardbooks, magazines, or pamphlets) is proposed to increase from \$6.00 to \$7.00.

### **Department of Parks and Recreation**

#### General Activity and Recreation Fees

The Director of Parks and Recreation sets Activity and Facility Use Fee Schedules (other than golf fees, which require Council approval) based on market conditions and City Council adopted policies. The Schedules are published at least annually by the Department of Parks and Recreation, and will be made available to the public.

#### Golf Fees

To avoid having fee changes in the middle of the golfing season, golf fees go into effect on April 1 of every year. Since most other fee changes become effective

with the start of the new fiscal year, proposed golf fees for future years are presented for Council's consideration ten months in advance.

Staff has completed the usual Market Survey of Golf Fees (please see Attachment B) that provides an overview of basic weekday and weekend fees and a comparison with Sunnyvale fees for each course. It is important to target the golf fees to match our planned market positions for each course. Market Range designations are a clear way of determining where golf courses fit within the market in terms of location, yardage, course condition, practice facilities, etc. For example, Market Range III represents country club or destination style golf courses. Sunnyvale Golf Courses fall into Market Range II and the City's fees compare well with Market Average for Market Range II. The proposed fees for April 1, 2008 through March 31, 2009 have been adjusted taking the market positions into account.

In December 2006, Council requested a Study Issue regarding the benefits/costs to provide a \$2.00 differential for resident weekend golfers. City Council will have seen that Study Issue on May 22, 2007. Any changes approved by Council on that date will be incorporated into the final Budget documents and fee resolution.

### **Department of Public Safety**

As part of the budget preparation process this year, a detailed analysis of all Public Safety fees was performed to ensure that fees reflect both the direct and indirect costs of providing the service.

#### Applicant Fingerprint Fee

The Department of Public Safety provides fingerprinting services including criminal history information to be used for employment, licensing, or certification purposes. State Law allows the local agency to charge \$10.00 to recover the cost of taking the fingerprints and processing the required documents. In addition, local agencies are allowed to recover the \$32.00 fee charged by the Department of Justice for fingerprint processing. The proposed fee for fingerprinting is therefore \$42.00.

#### Criminal Justice Administration Fee

This fee is not currently being charged because the Office of the City Attorney opined that having the Finance Department bill the defendant for these fees may be inconsistent with State Law. City staff has attempted to coordinate the collection of this fee with the County as part of the County's restitution program but has experienced some difficulty in doing so. The Office of the City Attorney has agreed to review this fee again early next fiscal year in order to determine the proper process to try and collect this fee through the courts.

The collection of this fee could be immediately enacted if the City is successful in working out a process to collect this fee through the judicial process.

#### Vehicle Mechanical or Registration Violation Citation Correction (Fix-It Ticket Signoff)

Customers routinely come to the Department of Public Safety to have the desk officer sign off on a "Fix It Ticket". These citations, which may be issued by any law enforcement agency, including the Highway Patrol, are issued for minor mechanical or registration violations, such as a broken light or missing registration sticker, and are intended to ensure that the customer fixes the issue with their vehicle. In order to avoid further penalties, recipients of these citations must have a police officer verify that the violation has been corrected.

Prior to last year, this service was provided free of charge. Last year, two fees for this service were introduced: a fee for residents and a fee for non-residents. Staff is again proposing two fees and that this fee be again subsidized for residents. A full cost recovery of this service resulted in a fee of \$27.00. That is the proposed fee for non-residents. For Sunnyvale residents, a 50% subsidy is again being proposed, resulting in a fee of \$13.50. This subsidy is being recommended to assist and encourage Sunnyvale residents to expeditiously repair their vehicle to help minimize accidents.

#### Firearm Sales

The permit for firearm sales is proposed to be split into two fees: new permits and renewal permits because new permittees are required to be fingerprinted. As previously mentioned, the applicant fingerprint fee is \$42.00. The fee for a new permit is therefore \$174.00 while the fee for a renewing permit is \$132.00; the difference being the \$42.00. The Department of Justice notifies Public Safety of any future interactions between the permittee and the Department of Justice. No new fingerprints are necessary.

#### Firearm Seizure Fee

In the interest of cost recovery, this fee has been split into two separate fees. One fee covers 1 – 5 weapons seized and the other fee pertains to 6 or more weapons seized. The workload associated with the seizure of 1-5 weapons is relatively consistent. However, staff time increases as the number of weapons seized increases beyond 5. However, it is important to note that the seizure of a large amount of weapons is rare.

#### Officer Contract Overtime

There are two fees associated with Officer Contract Overtime: One for non-profit organizations (schools, churches, etc.) and one for any other type of organization. The fee is calculated to include budgeted overtime costs plus indirect costs of department and Citywide overhead. This fee is proposed to be discounted for non-profits by the amount of the indirect costs (\$14) but

assessed at full value for all other types of organizations. The fee is proposed to be discounted for non-profits to encourage proactive utilization of Public Safety's services for their events so that regular Public Safety resources can best be deployed to maintain routine operations.

#### Taxicab Franchises

Staff recommends that the four taxicab fees (Franchise fee, Driver's Permit Fee, and Vehicle Fee) be subsidized in the interest of public safety, health, and welfare. The following table shows the difference between full-cost and the subsidy for these four fees:

<b>Fee</b>	<b>Full-Cost</b>	<b>Proposed Fee</b>
Franchise-New/Renewal	\$1,005	\$386
Driver's Permit-New	\$ 167	\$105
Driver's Permit-Renewal	\$ 117	\$ 55
Vehicle Fee	\$ 344	\$175

If the City were to initiate full cost recovery of these fees, it is feared that it would be cost prohibitive to the taxi drivers and the taxi companies would no longer provide taxicab service to residents and the business community.

#### Fire Safety Operations Permits

It is recommended that the Fire Safety Operations Permit fees be increased by 25%. This year, Finance and the Department of Public Safety re-evaluated the Fire Safety Operations Permit Fees to bring them in-line with the full cost recovery methodology. However, the current budget structure for Fire Operation Permitting services does not separate the services provided to the facilities required to be permitted from those services provided for the general welfare of the community as a whole.

It was estimated that 73% of inspections were for permitted facilities. Based on that estimate, the proposed 25% increase is below the full cost to provide the service. However, because the percentage of permitted facilities is an estimate, staff is proposing to lessen the impact on the business community by increasing the fee by only 25% until further analysis can be done to determine the actual cost of services performed for permitted facilities only.

Steps have been taken to isolate the direct costs associated with future Fire Safety Operation Permitting services to provide a more concrete basis for cost analysis and the Department of Public Safety will be undertaking an operational review of the entire Fire Prevention Bureau to ensure that program costs are identified and justifiable.

### Overtime Inspection Fee

It is recommended that the Overtime Inspection fee be removed from the fee schedule. Inspection fees are not performed on an overtime basis. They are performed during normal business hours and are charged accordingly.

### Hazardous Materials Operations Permits

Staff is proposing that Hazardous Materials Permit fees remain flat at this time and not be subject to the inflationary increase. Due to the cost recovery nature of this program, the operating costs are covered with a net zero effect to the City's general fund. Staffing of this program is expected to change in the upcoming fiscal year. Public Safety staff is prepared to complete a thorough analysis next year to ensure that staffing meets operational needs and adjust fees accordingly at that time.

### Animal Control Fees

Animal Control fees are market based and are not intended to be full cost recovery. While these fees have been set at a level that is at the higher end of the current market rates in comparable cities, staff believes that to set them to recover cost would jeopardize the program's mission of providing services for the general welfare of the community and preclude the department from being able to regulate the animal population in response to the legal guidelines set forth in the Health and Safety Code, the Food & Agriculture Code, the Government Code and our own Municipal Code.

## **Department of Public Works**

### Storm Drainage Fees

This fee is designed to recover costs of the incremental impact that development places on the City's storm drain system. Staff is recommending that these fees increase by 5%, which is consistent with the increase of other construction related fees.

### Water and Sewer Connection Fees

Connection fees (often called Capacity Fees) are also designed to recover costs from developers for the impact of new or increased development on the water and wastewater systems. Connection fees are regulated under state law, must be based on capital and related costs, and the revenue from these fees should go directly to fund system expansion. Staff is recommending that fees increase by 5%, which as previously mentioned, is consistent with the increase of other construction related fees.

It should be noted that the final draft of the Water and Wastewater Cost of Service Study is under review by staff. The study recommends significant changes to the structure of connection fees. Staff is preparing to bring the findings of the study with regards to all utility related fees to Council in a study

session to be scheduled for September. Any changes made at that time by Council could be reflected as an amendment to the fee schedule.

#### Transportation Impact Fee

The Transportation Impact Fee, or TIF, was approved by Council in late 2003 as part of the Transportation Strategic Program. It was established to mitigate increased travel in the City generated by new development through the completion of transportation infrastructure projects (see RTC No 03-385).

The TIF is based on two key components: the net new trips generated by development and the cost of the transportation infrastructure necessary to sustain the increase in traffic. The TIF was established in two tiers for inside and outside of the Moffett Industrial Park, with different fee rates applied for development projects north of Route 237 and south of 237.

At the time of its effective date of January 1, 2004, the City Council reduced the TIF by 50% through the remainder of FY 2003/2004 for jobs producing development, e.g., office, research and development, industrial, various types of retail, etc. and by 25% for FY 2004/2005. Beginning with FY 2005/2006, the TIF was assessed at full value. In FY 2006/2007, an inflation factor of 2% was applied.

Ideally, fees such as the TIF should be inflated by an index that would measure the increased cost in order to ensure sufficient fee revenue is collected to fund transportation infrastructure projects. One such index is the Engineering News Record's Construction Cost Index (CCI) for the San Francisco Bay Area. The CCI is the standard measure for construction costs and is a more appropriate indicator than the Consumer Price Index (CPI) because it specifically captures project construction costs in terms of labor and materials.

Had the TIF been inflated by the CCI since its adoption in 2004, it would be approximately 17% higher than the adopted rates. Staff is recommending a TIF increase of 5% in FY 2007/2008. While the proposed increase is below the actual increase in construction costs over the past year, staff is proposing 5% in order to lessen the impact on the development community, while ensuring that additional fee revenue is collected to help offset the substantial costs of transportation infrastructure projects. Staff will continue to monitor construction costs and determine whether future recommended TIF increases should track with the CCI or through alternative means.

#### Groundwater to Sewer Discharge Fees (Significant Industrial User)

This fee is proposed to be deleted from the fee schedule. This fee is already recovered through the utility rates set for significant industrial users.

Utility Administrative and Processing Fees

Administrative fees from billing services, such as delinquency processing fees, are recommended to be adjusted to reflect changes in cost. Fees on returned checks will remain the same. Of note is the significant reduction in the same day service start fee. This reduction was achieved through productivity enhancements implemented by utility billing that have allowed us to reduce the time and effort to start service with no notice from the customer.

**FISCAL IMPACT**

Recommended adjustments to the fees have been incorporated into the recommended FY 2007/2008 Budget and Long Term Financial Plan. Exhibit A of Attachment A presents the proposed Fee Schedule for FY 2007/2008, reflecting proposed fees and charges. These increases are necessary to reflect the rising cost of providing services.

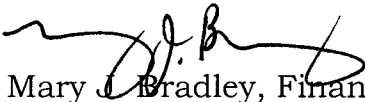

**PUBLIC CONTACT**

Notice of the public hearing on the proposed fees and charges will be published in the Sunnyvale Sun. In addition, copies of this report will be available for public inspection along with other budget materials. Copies of the City's recommended FY 2007/2008 Budget are available at the Library and in electronic form on the City's website. Notice will be sent to the Building Industry Association, which has requested notice pursuant to the Government Code. The Parks and Recreation Commission, the Library Board of Trustees, and the Planning Commission will review the proposed fees and charges within their respective areas prior to the public hearing.

**RECOMMENDATION**

The proposed changes in the City's Fee Schedule are presented for review purposes at this time. A public hearing on fees and other budget-related matters is scheduled for June 5, 2007. Formal action adopting the new fee levels by resolution is scheduled for June 19, 2007.

**RESOLUTION NO. \_\_\_\_\_****A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF SUNNYVALE  
FIXING AND ESTABLISHING FEES, RATES, AND CHARGES FOR GOODS  
AND SERVICES PROVIDED BY THE CITY OF SUNNYVALE**

WHEREAS, the City Council is empowered to impose reasonable fees, rates, and charges for municipal services;

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF SUNNYVALE THAT:

1. The schedule of charges attached and incorporated as Exhibit "A" are hereby established.
2. All provisions of prior City Council resolutions establishing fees which conflict with the terms hereof are hereby superseded and rescinded.
3. The establishment of rates herein is exempt from the requirements of the California Environmental Quality Act pursuant to Public Resources Code Section 21080(b)(8) and the adoption of this resolution is for the purposes of (1) meeting operating expenses, including employee wage rates and fringe benefits; (2) purchasing or leasing supplies, equipment or materials; (3) meeting financial reserve needs and requirements; (4) obtaining funds for capital projects, necessary to maintain service within the existing service areas; and (5) obtaining funds necessary to maintain intra-city transfers.
4. This resolution shall be effective upon adoption, and shall be operative commencing July 1, 2007, unless specifically provided for otherwise in this resolution. Development process fees and Mitigation Fees become effective 60 days after adoption in accordance with §66017 of California Government Code and Golf Fees become effective on April 1, 2008.

	<b>Fiscal Year 2006/2007</b>	<b>PROPOSED Fiscal Year 2007/2008</b>	<b>Charge Code</b>	<b>Object Level 3 &amp; 4</b>	<b>Title (Obj. Lvl. 3)</b>	<b>Title (Obj. Lvl. 4)</b>
<b>SECTION 3.07 RELOCATION OF BUILDINGS FEES (SMC Ch. 16.36)</b>						
Application/investigation fee for building relocation permit	<u>\$203.00</u>	<u>\$203.00</u>	799106	1361	Permit - Miscellaneous	
Demolition permit (per structure)	<u>\$139.00</u>	<u>\$139.00</u>	799106	1652	Demolition Fees	
<b>SECTION 3.08 PROCESSING ENVIRONMENTAL DOCUMENTS</b>						
Environmental Assessment (Initial Study)	<u>\$625.00</u>	<u>\$625.00</u>	799106	1654	Environ. Review Fees	
Review of environmental study (e.g. traffic, noise, etc)	<u>\$1,175.00</u>	<u>\$1,175.00</u>	799106	1654	Environ. Review Fees	
Environmental Impact Report (Preparation) - % of consulting fee	<u>10%</u>	<u>10%</u>	799106	1654	Environ. Review Fees	
Environmental Consultant Charge	<u>AS NEEDED</u>	<u>AS NEEDED</u>	799000		Deposits and Pass-throughs	
<p>Fees are payable at the time of submission of the application, or, in the event an Environmental Impact Report is required, at such time as it is determined an Environmental Impact Report is necessary, or in the event a specialized environmental study is required, at such time as it is determined necessary. In the event the City retains a consultant to assist in preparation of the EIR, the applicant shall deposit an amount to be determined by the Director of Community Development based upon that official's estimate of the cost of preparation.</p> <p>If the costs of preparation exceed the amount of the above deposit, the Director shall notify the applicant who shall, within five days of such notice, deposit additional amounts necessary to cover costs of preparation. If costs of preparation are less than the amount deposited, any amounts remaining upon certification of the EIR shall be refunded to the applicant. Any applicant who desires to proceed directly to the preparation of a draft EIR may do so without the payment of a fee for review and initial assessment upon payment of the fee for preparation costs, review, and required filings for an EIR.</p> <p>The fee for copies of documents prepared pursuant to this resolution shall be the standard fee charged by the City for copies of like documents, provided that no fee shall be charged another unit of government required to review any document requested by it. The fee or fees set hereby shall be in addition to any other fee required by law.</p> <p><b><u>Postage charges will be added if documents are mailed.</u></b></p>

<b>SECTION 8.03 WATER AND SEWER CONNECTION FEES</b>						
Pursuant to Section 66001 of the Government Code, the City Council hereby determines:						
(1) The purpose of the water and sewer connection charges is to assure payment by developers of their pro rata share of the escalated cost of the City's water and sanitary sewer system.						
(2) The charge will be used to reimburse the City for the owner or developer's fair share of the use of the water system and sanitary sewer systems.						
(3) There is a reasonable relationship between the use of the fees, the need for a water system, the need for a wastewater treatment plant, and the types of development projects upon which the fee is imposed. All development projects create varying needs for the consumption of water which cannot be fulfilled unless the project is connected to the municipal water system to assure an adequate supply of water to each project, and all development projects generate sewage and create the need for sewage conveyance, disposal and treatment. The degree to which each project is charged is based upon factors related to degree of potential usage, such as type and size of projects and number of units and calculations of the escalated cost of the City's sanitary sewer system; the current system capacity; the cost of conveyance, treatment and disposal per equivalent single-family dwelling unit; and the estimated daily discharge for each facility to be connected to the sanitary sewer system, taking into account proportionate average daily discharge of sewage, total organic carbon, suspended solids, and ammonia nitrogen.						
The fees or charges shall be collected from the owner or developer of property either (1) prior to approval of the original connection of the property to the water or sanitary sewer system, or a redevelopment with incremental impact, or (2) in the event the uses being made of the property presently connected to the system are enlarged, added to, or further structures are constructed on the property.

<b>WATER AND SEWER CONNECTION FEES (contd.)</b>						
A. <u>Water Frontage Fee.</u> A frontage fee per lineal foot of frontage shall be paid by the owner or developer of property contiguous to a public right-of-way in which a water main (8" water line) has been installed or is to be installed without direct expense to the owner or developer other than payment of the charges specified herein. Frontage of corner lots, as the term "frontage" is used herein, shall mean the side of the lot to which the City has authorized a water connection.	\$45.00	<u>\$47.00</u>	799918	3053	Water Frontage Fees	
B. <u>Water Connection Fees.</u> The connection fee to be paid for each parcel or property served through the same water lateral by the owner or developer of residential, commercial, industrial, or industrial property shall be computed as follows:						
The following definitions shall be used for the purpose of determining the connection fee in this section:						
(a) A residential "unit" shall mean one or more rooms used for living purposes by one family.						
(a) A commercial, industrial, or institutional "unit" shall mean each one thousand (1,000) square feet of gross floor area, or fraction thereof devoted to commercial, industrial, or institutional purposes.						
(b) "Institutional property" shall mean property used only for the erection and maintenance of church, school, hospital, or public buildings.						
<u>Residential Units</u>						
Standard Occupancy Unit (with 3 or more bedrooms)	<del>\$453.00</del>	<u>\$476.00</u>	799918	3050	Water Connection Fees	
Low Occupancy Unit (with 1 or 2 bedrooms, 2 bedrooms and den)	<del>\$330.00</del>	<u>\$347.00</u>	799918	3050	Water Connection Fees	
<u>Commercial, Industrial and Institutional Units:</u>						
First Unit	<del>\$453.00</del>	<u>\$476.00</u>	799918	3050	Water Connection Fees	
Second Unit	<del>\$330.00</del>	<u>\$347.00</u>	799918	3050	Water Connection Fees	
Third Unit	<del>\$248.00</del>	<u>\$260.00</u>	799918	3050	Water Connection Fees	
Fourth and each additional unit	<del>\$172.00</del>	<u>\$181.00</u>	799918	3050	Water Connection Fees

<b>FIRE HYDRANTS AND HYDRANT METERS (contd.)</b>						
C. WITHDRAWAL PERMIT. An annual nonrefundable permit fee is established as the charge for a permit to withdraw water from any fire hydrant in the City when a permit is issued between January 1 and September 30. If the permit is issued from October 1 through December 31, the fee shall be 50% of the foregoing. The amount of the deposit for the meter required for such water withdrawal furnished by the City shall be	\$249.00	\$249.00	799918	3052	Water Hydrant Fees	
or	\$1,961.00	\$1,961.00	799918		Deposit/Pass-through	
the current cost of a hydrant meter, whichever is greater.	<del>2 1/2 times</del>	2 1/2 times	799918		Deposit/Pass-through	
The total amount due and payable prior to the receipt of a meter is (permit fee plus deposit):	\$2,211.00	\$2,211.00	799918		Deposit/Pass-through	
<p>Each permit is valid through December 31 of the calendar year in which the permit was issued. Failure to return the hydrant meter on or before the expiration date shall result in automatic forfeiture of any deposit paid. When hydrant meters are returned prior to or on the expiration date, the cost for any consumption as measured by the meter shall be charged using the commercial rate block and deducted from the deposit amount. If a hydrant meter is not returned prior to or on the expiration date, the permittee shall be billed the cost of any consumption at the monthly commercial block rate. Any damages or missing hydrant wrenches will also be deducted from the deposit. The remaining balance shall be refunded. Any charges in excess of the deposit shall be billed to the permittee.</p>

<b>FIRE HYDRANTS AND HYDRANT METERS (contd.)</b>						
The following definitions shall apply to this section:						
(1) "Hydrant service area" shall be defined as the area that a hydrant will serve the normal fire protection needs as determined by the City, taking into account the street pattern, type of development, size of water service mains, and all other factors bearing on plans for fire prevention and suppression.						
(2) "Frontage" shall be defined as (a) that side of the lot on which the water service is installed to serve the lot for one-family or two-family residential corner lots, (b) the frontage measured along all public rights-of-way of the parcel being developed or improved for commercial, institutional, industrial, multiple family property.						
(3) "Development" or "Improvement" shall be deemed to occur when a Building Permit, Development Permit or Subdivision Agreement is required, except when the additional floor space is less than one additional residential unit or less than 1,000 square feet of additional gross floor area. In the case of developments other than residential, "development" or "improvement" shall also be deemed to occur whenever a parcel of property is redeveloped under a different zoning classification.						
<b>SECTION 8.06 STREET LIGHTING</b>						
The sum per lineal foot shall be collected from the owner or developer of property at the time a Development Permit, Subdivision Agreement, or Building Permit is issued in each case where the City recommends that the installation of the street lighting system be delayed, or where the street lighting system was previously installed at City cost.	<del>\$28.00</del>	<u>\$28.00</u>	115990	2903	Street Lighting Fees

**Exhibit A**

**SECTION 1.02 WATER WITHIN CITY LIMITS.** (Sunnyvale Municipal Code Chapter 12.24) Water sold to consumers within the corporate limits of the City of Sunnyvale shall be sold at the rates specified.

A. Users Billed Monthly

**Charge Code: 799918**

**Object Level 3 & 4: 3056**

All potable water users billed monthly, except landscape, agricultural and institutional users, shall pay a water charge for each one hundred cubic feet, or part thereof, of water as follows:

(1) Apartment Users<sup>1</sup>

<u>Hundred Cubic Feet (CCF)</u>	<u>Rate Per CCF</u>
0 - 4	\$1.2909
5 - 23	\$2.5002
24 - 35	\$2.6630
36 +	\$2.7432

(2) Residential Users

<u>Hundred Cubic Feet (CCF)</u>	<u>Rate Per CCF</u>
0 - 6	\$1.2909
7 - 33	\$2.5002
34 - 50	\$2.6630
51 +	\$2.7432

<sup>1</sup>In residential developments where two (2) or more dwelling units are served by a common meter, the upper limit (in cubic feet) of each rate block shall be multiplied by the dwelling units served by the common meter in calculating the rates to be applied to water usage monitored by the common meter. In such case, the lower limit of each rate block shall be one (1) cubic foot over the upper limit of the next lower rate block.
